Product Specs

- Four available widths: 36.0", 48.0", 60.0", and 72.0"
- 18.0"h x 3.3"w post
- 3.6"w x 12.0"d T foot - *(standard)*
3.6"w x 7.8"d L foot - *(optional)*
- Power and data can be utilized on both sides of the rail
- Separate cable/data channel that allows for lay-in cable runs
- Up to ten rails can be connected to each other
(for anything over ten rails, contact a local electrician)
- Up to eight 125V AC outlets per rail and four inputs for data
- Specify base or ceiling feed
- Flexible power feeds with 3.5" of extension through flexible metal conduit
- UL listed as an Office Furnishing Accessory (UL1286), UL183, and in full compliance with NEC electrical specifications
- Optional electric compliance available for municipal standards such as NY Box, California Title 24, and Chicago
Please reference the Railway Spec Guide for more details
- 20 amps
- Four circuits, eight wire Byrne™ 8trac system
 - Only receptacles 1 and 2 are sent with orders. Contact Customer Service if additional receptacles are needed
- Up to 13 duplex receptacles per circuit (total of 52 available duplex receptacles allowed)
- 12 AWG line conductors which share a 12 AWG ground and 10 AWG neutral
- Fourth circuit is isolated and dedicated

When considering space requirements, it is important to remember to include the total combination of rail and post measurements.
