

The Most Advanced Networked
Air Quality System

Array is the latest breakthrough solution from Fellowes that improves indoor air quality faster and more efficiently than ever before. Array uses its proprietary technology to combine the benefits of H13 True HEPA filtration, a full suite of indoor air quality sensors and monitoring with real-time data to monitor, track, and improve building-wide air.

Featuring:

Seamless & Scalable Integration

Fits into existing spaces, while complementing HVAC systems. Array includes products designed for both drop ceiling and loft style open ceiling spaces, as well as wall and floor-standing units.

Automatic Sense & React Technology

Proactively responds whenever and wherever clean air is needed. Array purifier units are equipped with our patented EnviroSmart+™ Technology which includes a full suite of comfort and control sensors to continuously monitor Indoor Air Quality and respond to changes.

Effective & Efficient Filtration

All Array air purifier units include hospital grade H13 True HEPA filtration. The mixed-flow fan design maximizes air flow while delivering quiet operation. With one full year of filter life, there's less maintenance, less hassle.

Monitoring & Real-Time Data

Array's intuitive monitoring and display technologies tell you the exact air quality status of your space in real-time and includes our cloud-based Viewpoint dashboard, where you can remotely monitor and adjust your Array system.

Built For Your Building

The complete line of Fellowes Array products work together to provide an intuitive, coordinated response to your air quality circumstances – all designed with a clean, minimalist aesthetic.

Thanks to a range of configurations and installation options, Array is designed to complement and enhance any space without any connection to duct work.

Array™ Ceiling

Clean Air from Above

Designed to integrate into open ceiling spaces.

Code: White 5889201
Code: Black 5889202

Array™ Recess

High Performance, Low Profile

Inconspicuous air filtration that beautifully integrates with the majority of standard grid ceiling systems.

Code: AR1 5888601
Code: AR2 5888901

Array™ Recess UVC

Light-Powered Disinfection

Sophisticated flush-mount design seamlessly installs into double ceiling tile.

Code: 5889501

Array™ Wall

Wall to Wall Protection

Array™ Wall can be installed on a range of wall materials with minimal installation requirements and includes our Lookout display.

Code: AW1 5884801
Code: AW2 5885101

Array™ Stand

High Performance, Low Profile

Array™ Stand can be rapidly moved and repositioned wherever it is needed next, no installation required and includes our Lookout display.

Code: AS1 5884201
Code: AS2 5884501

Array™ Viewpoint

Data-Informed Decisions

Designed with facilities and operations managers in mind, Viewpoint provides comprehensive air quality data for all of your connected spaces from an easy-to-use dashboard.

Array™ Lookout

The Invisible, Now Visible

Lookout's display shows precise air quality status and filtration progress. Now, anyone can have confidence in their workspace's air quality.

Code: Wall 5885901
Code: Stand 5885801

Array™ Signal

Monitor Any Space

Signal provides remote monitoring for areas without a dedicated air purifier. Place in smaller offices, transitional areas, or anywhere else without proper ventilation or air monitoring.

Code: 5885401
