

# Fellowes®

## MP Series

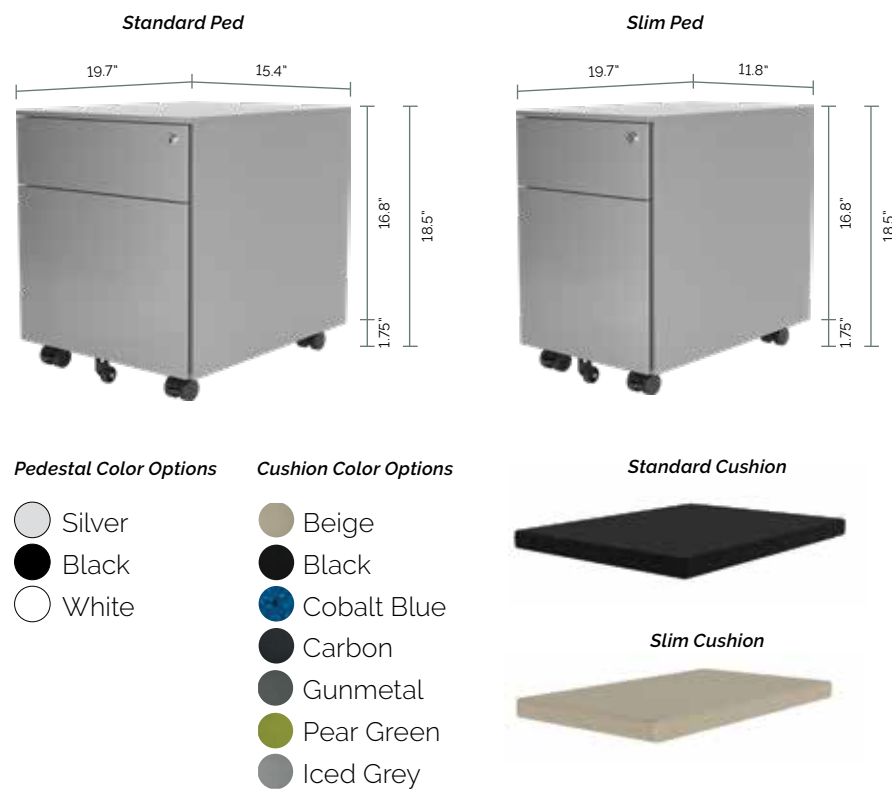

*Mobile Storage Pedestals*

# Flexible Storage

Maximize your unused workspace with the MP series storage pedestals. The MP series includes a Standard and Slim option allowing you to add efficient storage where it fits best while maximizing knee space. With two drawers and a repositionable pencil tray storing your work gear is easy and convenient. Thoughtfully designed with your needs in mind the MP series features anti-bacterial breakaway keys, recessed side pulls and locking casters. This feature rich and flexible storage option easily enhances any new or existing workspace.

With two sizes, three finishes and optional cushions in seven fabric colors, the MP series fits into any workspace.

## Product Features

### ***Flexible Storage***

With two drawers and a repositionable pencil tray there is plenty of space for everything you need in your workday.

### ***Peace of Mind***

Every MP pedestal includes a lock and key to ensure the security of your belongings. All MP pedestal keys are made with a 99.9% anti-bacterial material to help reduce the spread of germs.

### ***Space Saving Design***

Both the Standard and Slim pedestal slide over the feet of Fellowes' table bases—saving you even more room under your desk. The Slim pedestal maximizes knee clearance under your desk.

### ***Heavy Duty Stability***

With steel construction and an anti-tip front wheel, the MP series will remain stable when filled to maximum capacity.

### ***Thoughtful Features***

With recessed side pulls the MP series has a clean aesthetic that also includes locking front casters to keep your pedestal in place.

### ***Added Comfort***

With seven fabric colors to choose from and just over one inch of foam padding, the optional MP series cushions provide additional, comfortable seating at your workstation when needed.
